**CHRISTMAS
TREE BOOKLET**

Here's our valuable Christmas Tree Booklet that tells you how to turn idle, useless land into profitable Christmas Tree production. With hardly any labor or cultivation, you can convert an investment of pennies into an income of as much as one thousand dollars every Christmas season.

While maturing, this Cash Crop will be improving your soil by retaining moisture, restoring fertility and preventing erosion. More than 40 million Christmas Trees are sold every year at a sale price of \$1 to \$5 each. Why not take your share of this lucrative market by planting your own handsome Christmas Trees. Western Maine Evergreens are **GUARANTEED TO LIVE** — your best assurance of quality Evergreens. Write today for your **FREE CHRISTMAS TREE BOOKLET**.

YOU CAN EASILY PLANT 1,000 TREES A DAY

Western Maine Evergreens are easy to plant because they have been conditioned to withstand transplanting in any climate. The illustrations show the proper planting technique:

To begin, insert spade straight into the ground. Pull handle back and push forward to form opening for tree back of spade. Next, spread out the roots carefully and place the tree in the hole. Close opening by stamping the soil on each side with your heel.

**WESTERN MAINE'S
SCIENTIFICALLY DESIGNED SPADE**
will cut your planting time in half!

TRANSPLANTING
INFORMATION

The figure 2-2, shown in the price list, represents the number of years the trees have been in seed beds, the number of years in transplant beds and the number of times transplanted. The first figure indicates the number of years the trees remained in the seed bed before being transplanted. The second figure indicates the number of years the trees remained in the transplant bed. The total of the figures indicates the age of the tree and each dash represents one transplanting. Thus, a 2-2 Douglas Fir is a 4-year-old tree which remained in the seed bed two years, was transplanted and remained in the transplant bed two years.

We are sorry that we do not have a larger list of transplanted Evergreens from which you can make a selection this Spring.

Due to an unprecedented volume of sales in the Fall of 1957 our inventory of transplants available for Spring is very limited. We expect to have more to offer another year.

If you do not find the varieties which you wish to plant in the above listed transplants you may find them in the seedling list at the right.

SEEDLINGS (Not Guaranteed)

We take every precaution in digging, packing and shipping our seedlings so that losses, if any, are reduced to a minimum.
